

APPROVAL CERTIFICATE

REFERENCE EASA.145.7117

Taking into account the provisions of Article 9(2) of Regulation (EC) N° 1592/2002 of the European Parliament and of the Council and the Technical Arrangements for maintenance currently in force between the European Aviation Safety Agency and ICCA, the European Aviation Safety Agency (EASA) hereby certifies :

ESSENTIAL TURBINES, INC

TCCA Aircraft Maintenance Organisation Number: TCA AMO 37-94
443 Meloche Avenue
Dorval, Quebec
Canada H9P 2W2

as a Part-145 maintenance organisation approved to maintain the products listed in the ICCA Approval Certificate and associated Category Limitations Document and to issue related certificates of release to service using the above reference, subject to the following conditions:

1. The scope of the approval is limited to that specified on the TCCA Approval Certificate, and the associated category limitations documents for work carried out in Canada. (Unless otherwise agreed in a particular case by EASA)
2. This approval requires continued compliance with CAR 573 and the differences as specified in the Technical arrangements for maintenance, including the use of the TCCA Form 24-0078 for release/return to service of components up to and including powerplants.
3. Certificates of return to service must quote the EASA Part 145 approval reference number quoted above and the ICCA AMO number.
4. Subject to compliance with the foregoing conditions, this approval shall remain valid for an unlimited duration until the approval is surrendered, superseded, suspended or revoked.

Date of issue:

21st September 2007

Re: Part-145 Approvals issued subject to the provisions of the Technical Arrangements Maintenance

Dear Sir/Madam,

Following a positive recommendation from Transport Canada under the terms of the Technical Arrangements Maintenance for :

ESSENTIAL TURBINES, INC

The European Aviation Safety Agency hereby encloses your Part-145 approval certificate reference:

EASA.145.7117

This certificate supersedes your JAR 145 acceptance certificate, and will be listed in the JAA list 3. Please note that this certificate has an unlimited duration.

In order to facilitate the transition process the current JAA TGL 23 should continue to be used regarding payment and applications. The JAA TGL 23 will be amended to reflect the new changes regarding the EASA Part-145 approval at the earliest possible opportunity.

You should review the conditions as specified on the attached approval certificate, in particular condition number 3 which states that all certificates of release to service must now quote the EASA Part 145 certificate number instead of the JAR 145 acceptance number.

Yours faithfully

J Hall
Maintenance Organisations Manager
